

Christmas Fair

This Saturday: 27th November
12pm - 2pm

Santa will be there with his Elves. There will be food to eat and presents to buy.

The weather is going to be cold. This picture was at school last winter! So pop in for a warm time!

YR 6

In maths the children have been tackling the tricky 4X4 investigation.....you might like to ask them! They have also embarked on writing some ambitious short stories.

Yr 5

The children are writing their own Robin Hood legends. In maths they are working on multiplication and the vertical grid compact method.....you might like to ask them!

Thank you to the parents who were able to watch their assembly.

Year 3 and 4

GREAT ROBOTS! Thanks to all the parents who worked with their children to produce such a range of robots. The imagination is lovely to see; the range of ideas include dogs, radio controlled, lighting up eyes and hats.

OPEN MORNING

It was lovely to see so many parents coming around to participate in lessons.

Infants

The infant Department had a cold but dry day at Hilliers as part of National Tree Week . Teachers have reported that the children were lovely and so were the late Autumn colours. They enjoyed indoor and outdoor activities including exploring the grounds, a nature trail and decorating pine cones for Christmas.

School Travel Plan:

Updated actions from the School Travel Plan are available on the website. The full plan can be viewed in school.

E safety

It has been suggested that I remind parents that the age for children to hold a Facebook account is age **13+**. Advice is that even when your child is old enough to hold an account then parents maintain an oversight. This is the best way to prevent cyber bullying. If bullying happens the police should be informed. Other schools shared instances where police involvement has been sought after unpleasant things have been posted by parents or pupils about school staff. This is not an issue at Highfield but it is hopefully of value to publicly offer this information to prevent any future problems.

Reminder: Please remember that if you arrive at the Infants after 9am access to the school is via the main entrance, however this is not a short cut exit route from Oak.

Children in Need

Thank you for the £1 s for Spots Day. The school raised over £200.

Communication

From next term the Updates will be sent by attachment to your home email address. They will also be published on the school website. This will save a substantial amount of money especially as the price of paper has risen dramatically. However I do not want this change to hamper communication so if you still require a paper copy can you send a note in to school so a distribution list can be established. It is also important that the office has your up to date contact details.
